What is EVI.CT.SE

European Vision Institute. Clinical Trials. Sites of Excellence

(EVI.CT.SE) is a Network of European academic and not-for-profit Clinical Research Sites, dedicated to perform clinical research in ophthalmology with the highest standards of quality, following the European and International Directives for clinical trial research (ICH GCP Guidelines and EU Clinical Directives).

The EVI.CT.SE is a Committee of the European Vision Institute, legally constituted in 2003 under European law as a not-for-profit, science-driven organisation in Brussels. The office of EVI.CT.SE is located in Coimbra, Portugal.

Aims and Objectives of EVI.CT.SE

- Professional organization of multicentric clinical trials in ophthalmology in Europe;
- Guarantee of a high level of quality and excellence in the work performed by the members;
- Serve as a resource for industry;
- Facilitate communication between industry and its members;
- Coordinate educational and training activities for its members.
